

Supervisor support:

Executive Coaching within your EAP contract

In order to be able to better master the challenges of everyday management, accompanying and supporting discussions are helpful from time to time. Especially for managers an exchange with experienced consultants is a valuable support in the daily business. For many years now, coaching has been a natural part of successful everyday management.

In addition to the general EAP service for all employees, we offer executive coaching at the highest level to employees at the management level: Our "expert service for leadership" is of course completely confidential, anonymous and free of charge for you.
